

Commissioner Frieden Says:

There are too many people in NYC who don't know their HIV status, so we need to change the law regarding informed consent and confidentiality.

We share Commissioner Frieden's goal of getting more people tested, but disagree that the changes in the law that he proposes are either necessary to achieve that goal or wise. Commissioner Frieden's assertion that too many New Yorkers don't know their HIV status ignores some basic points.

What YOU can DO

We Are:

in Albany and let them know that you oppose changes to the HIV informed consent and confidentiality laws.

Call the NY State Senate switchboard
518-455-2800
www.senate.state.ny.us

Call the NY State Assembly switchboard
518-455-4100
<http://assembly.state.ny.us/mem>

to lobby against
Commissioner Frieden's proposals.

in your community by
talking to friends, neighbors and loved ones
about this important issue

If you have questions, or want
to know what you can do,
contact the HIV Law Project:
