

1

As explained in the attached declaration of FBI Supervisory

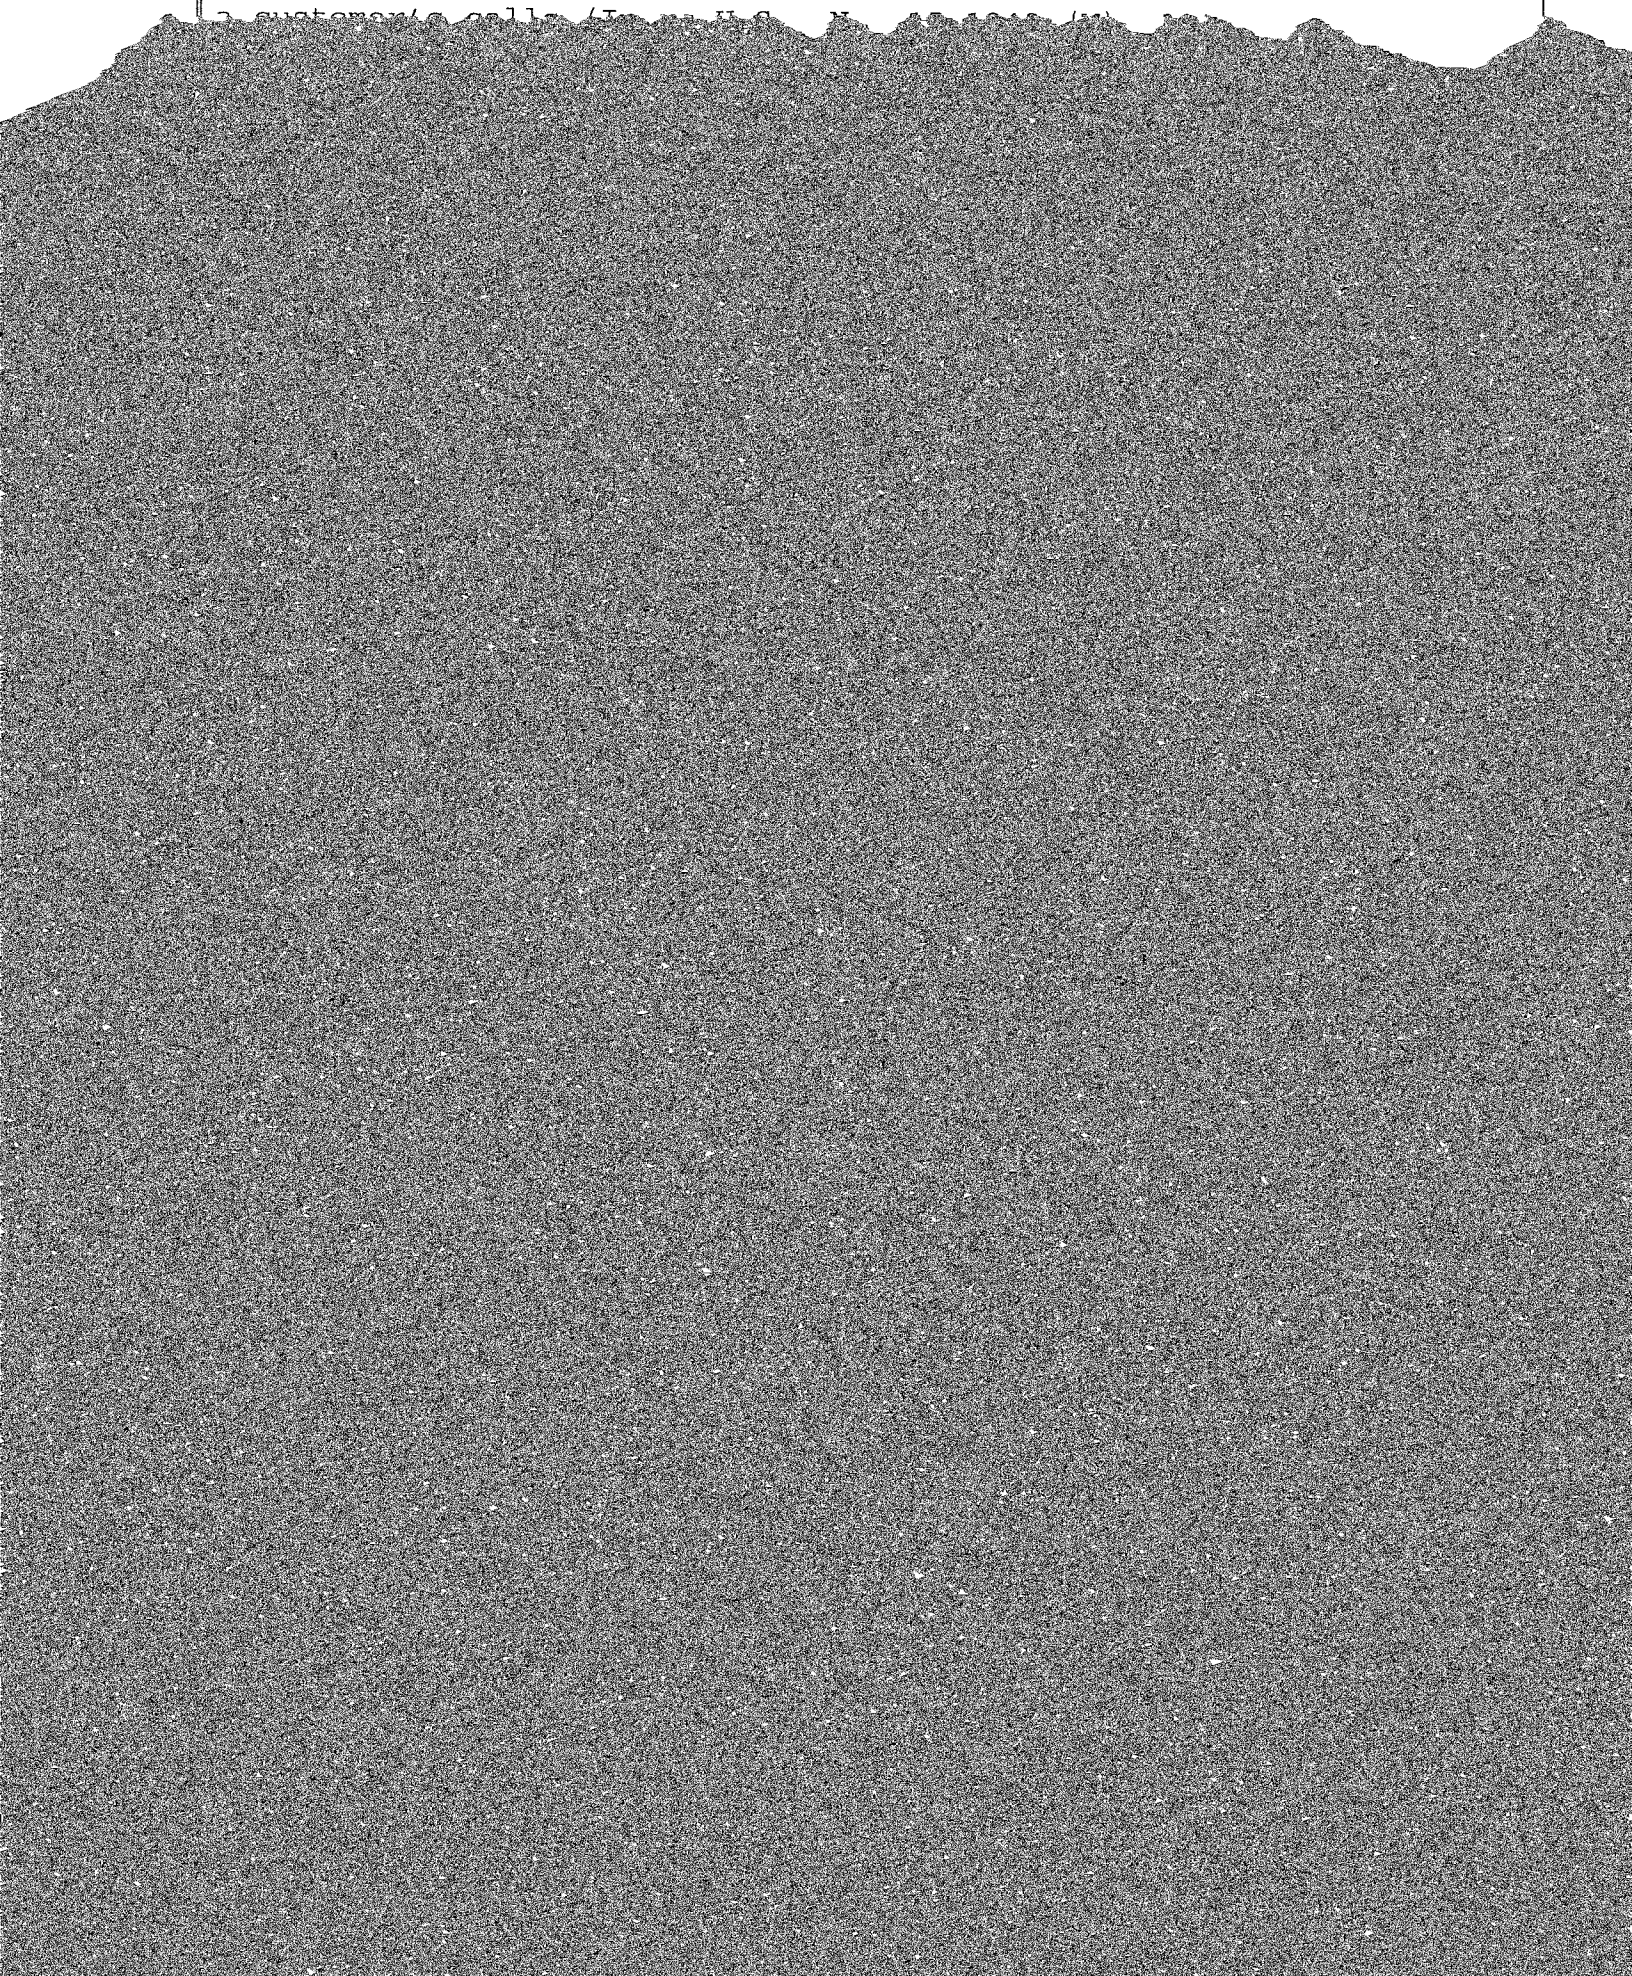

1 (and unknown to the government) which combines the UID with the user
2 passcode. If the result is accurate, the data is decrypted

- 1 to invoke time delays after repeated, unsuccessful passcode entries.
- 2 This means that after each failed passcode entry, the user must wait

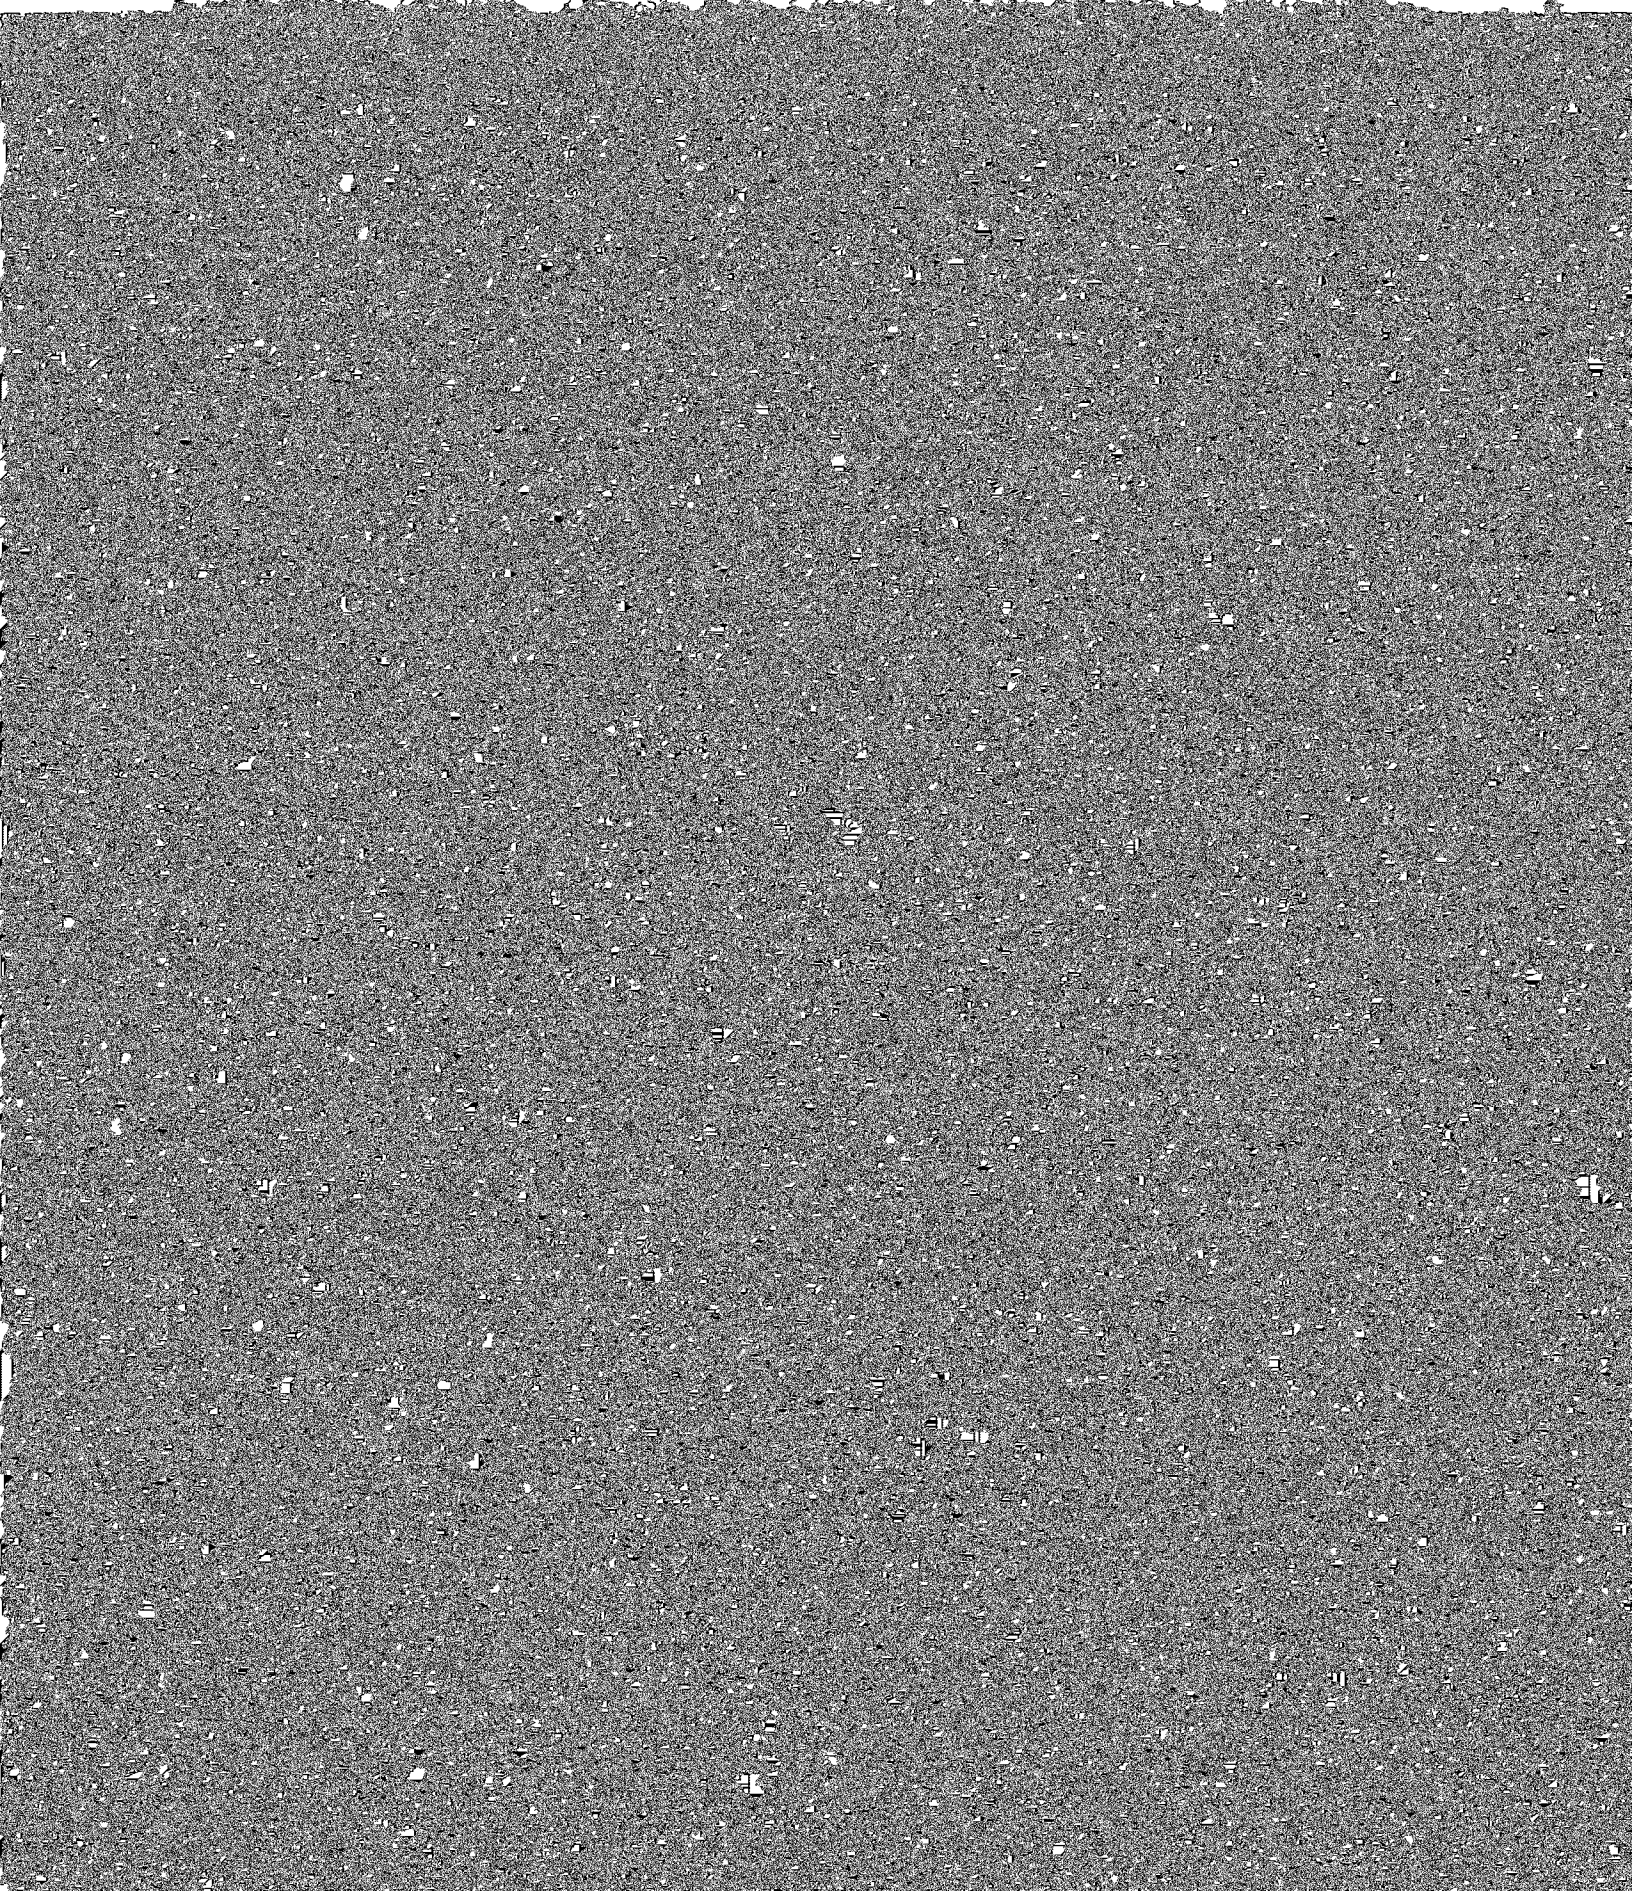

1 technical assistance from provider of electronic communication
2 services to provide information, facilities, and technical
3 assistance to facilitate the consensual recording of all calls

customer/calls/Transit

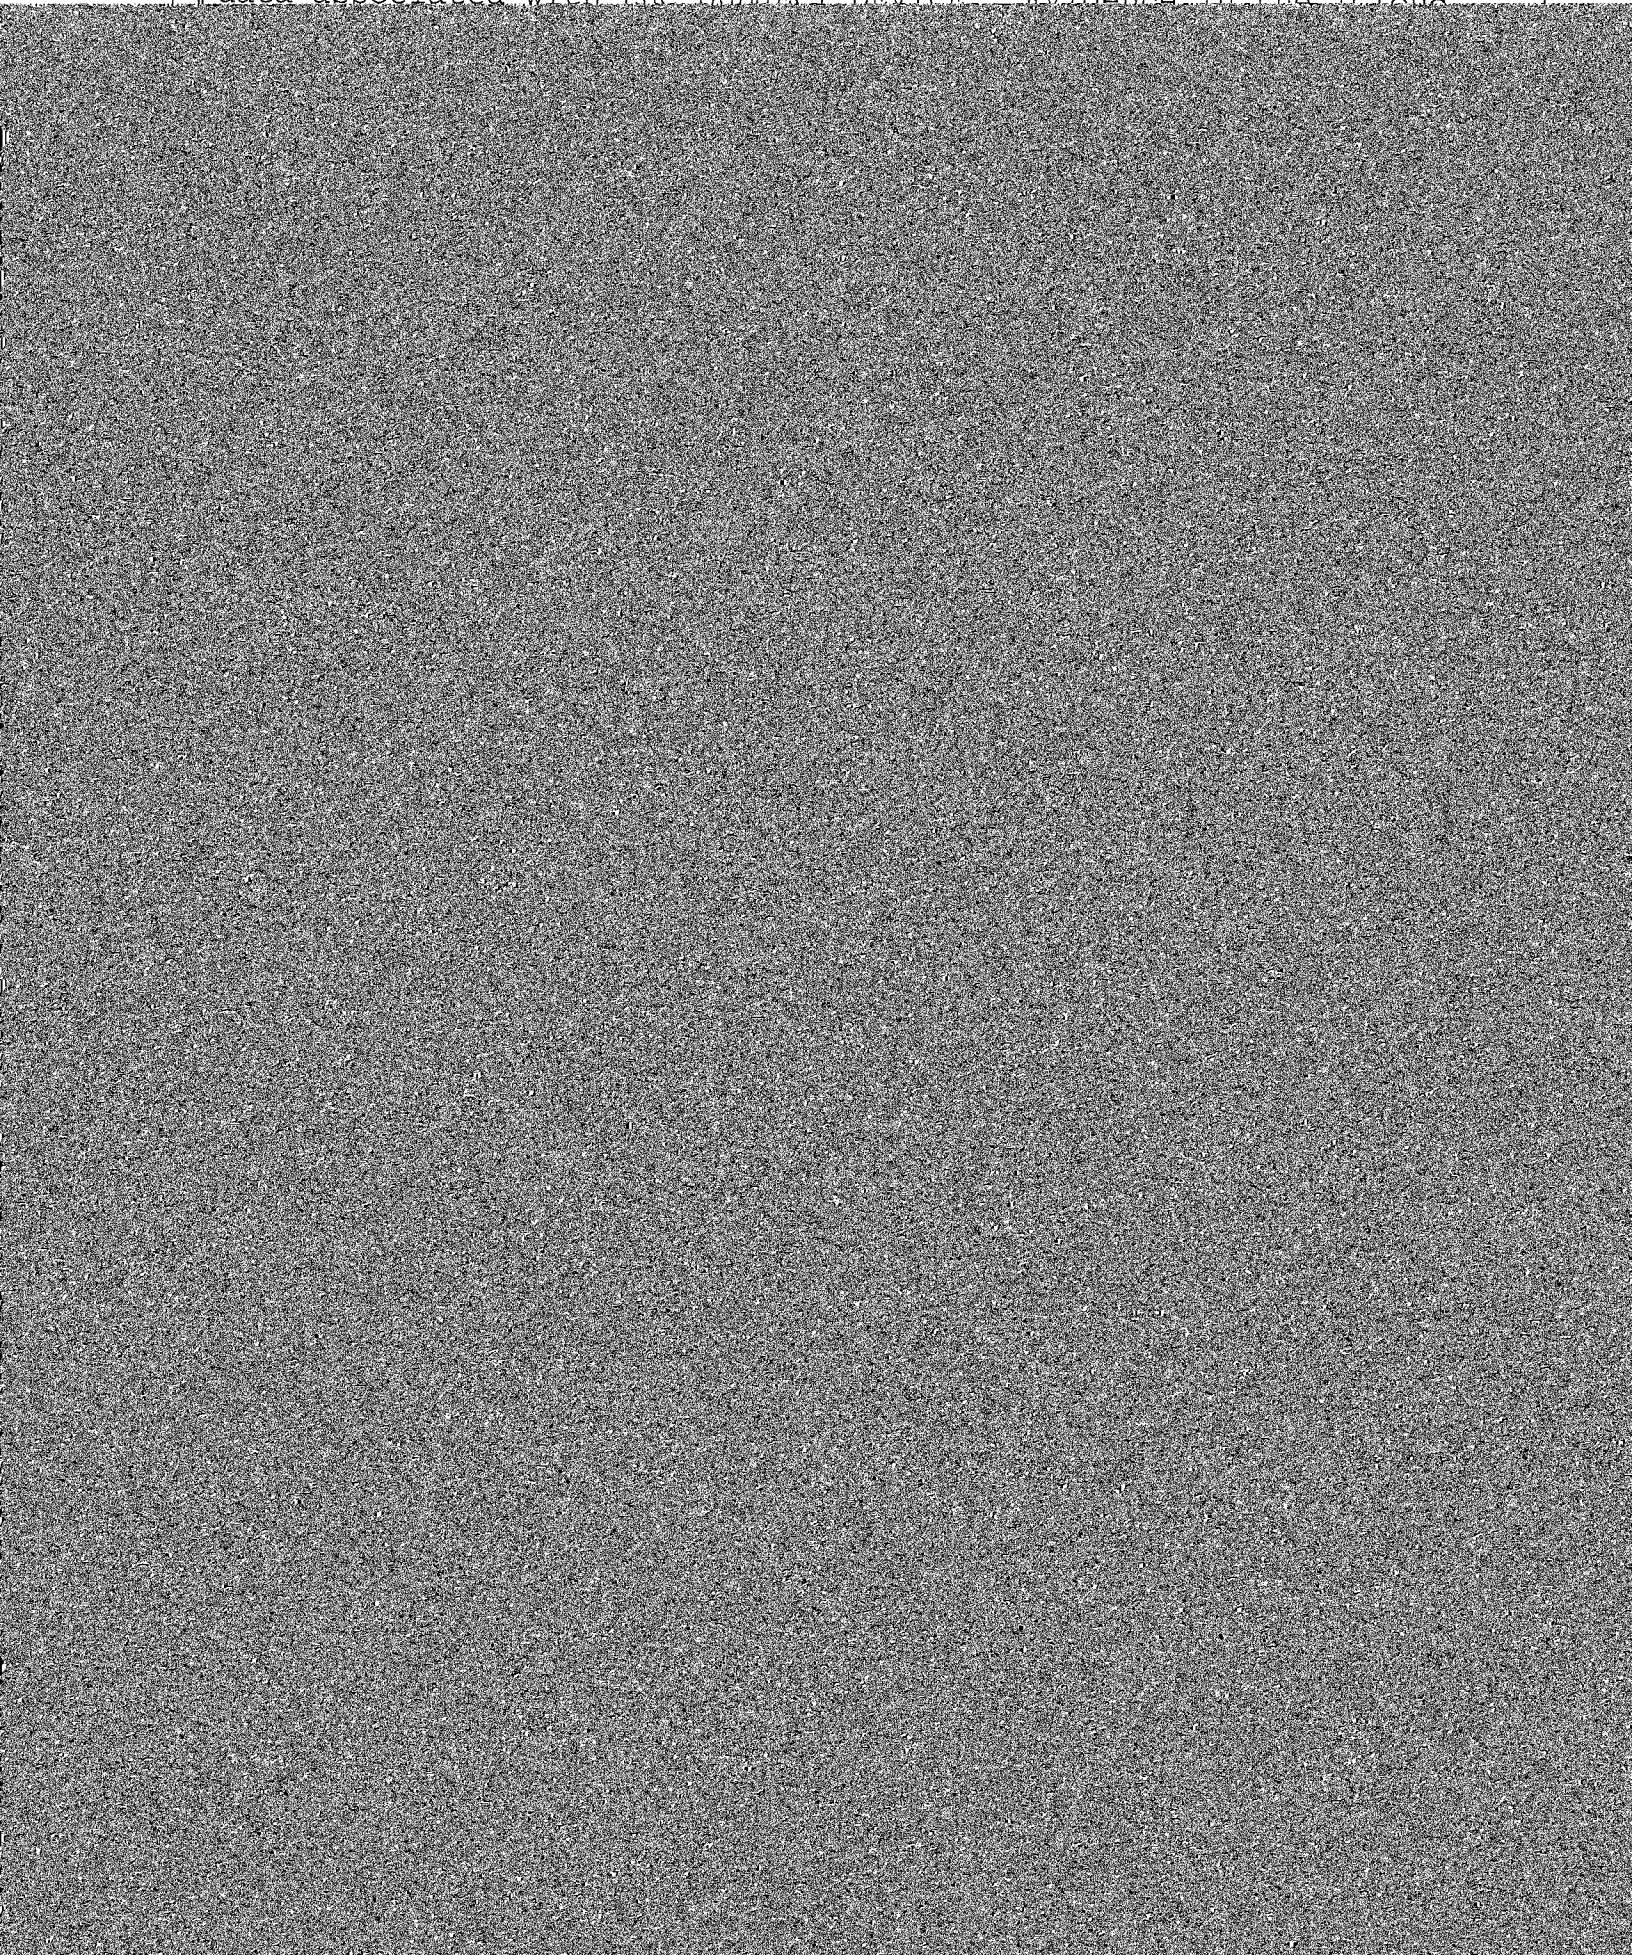

1 achieve the purpose of the warrant. See id. Each of these factors
2 supports issuance of the order directed to Apple in this case.

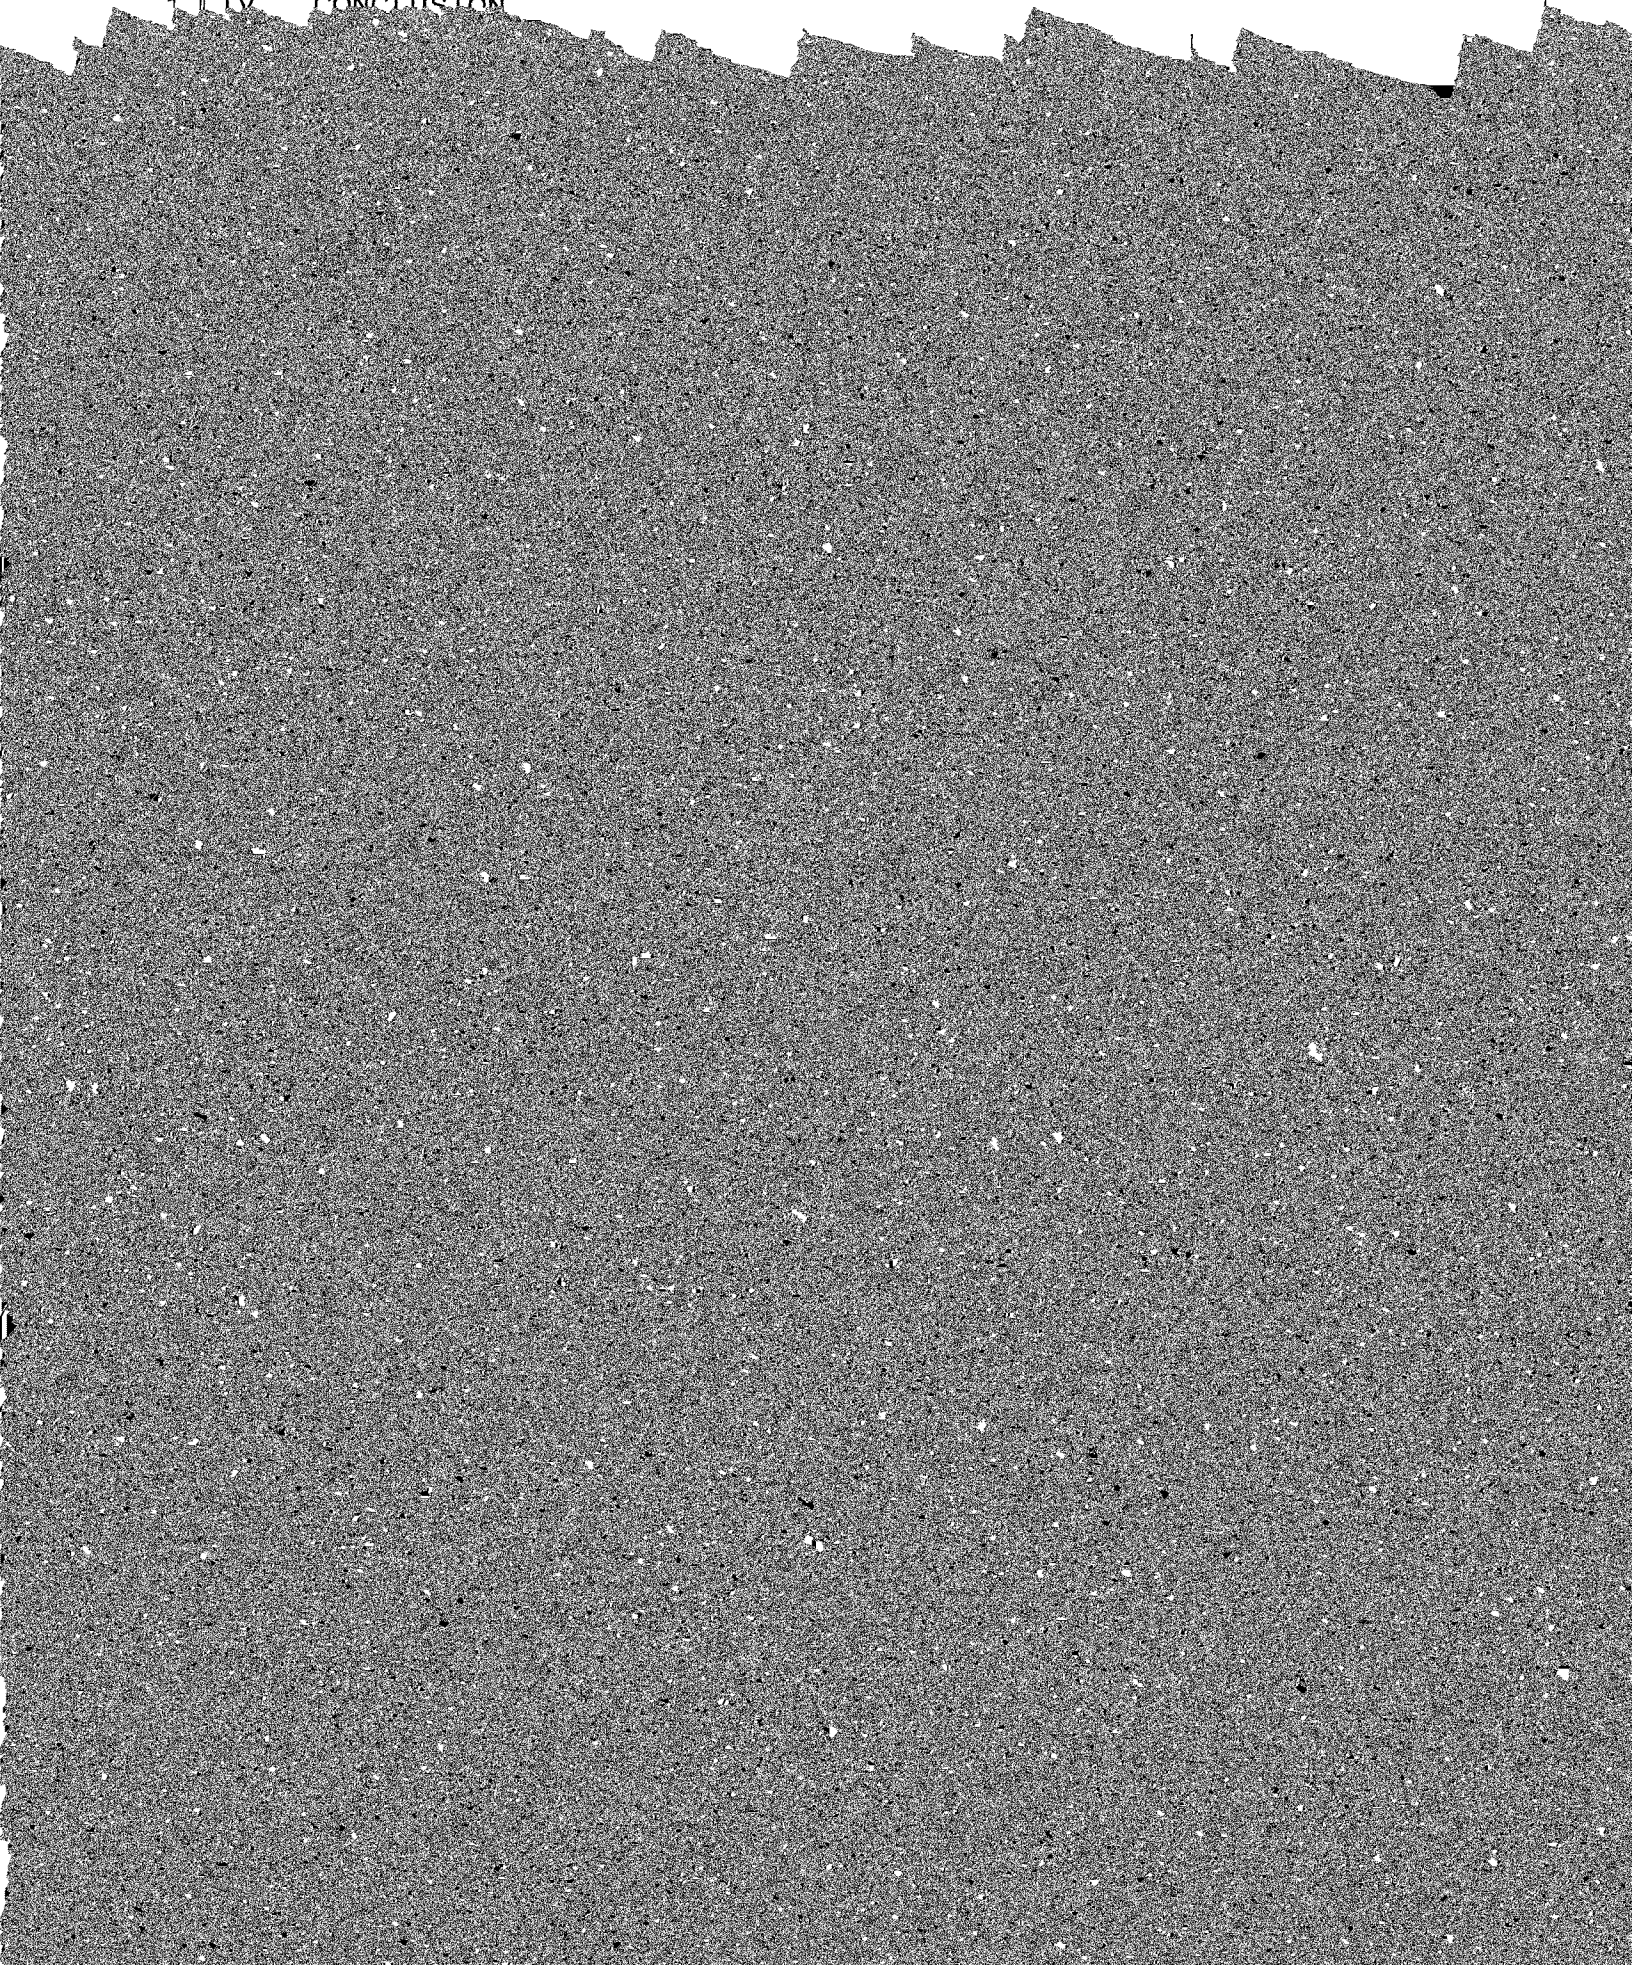

that "the Community Facility"

1 data associated with the SUBJECT DEVICE. Evidence in the iCloud

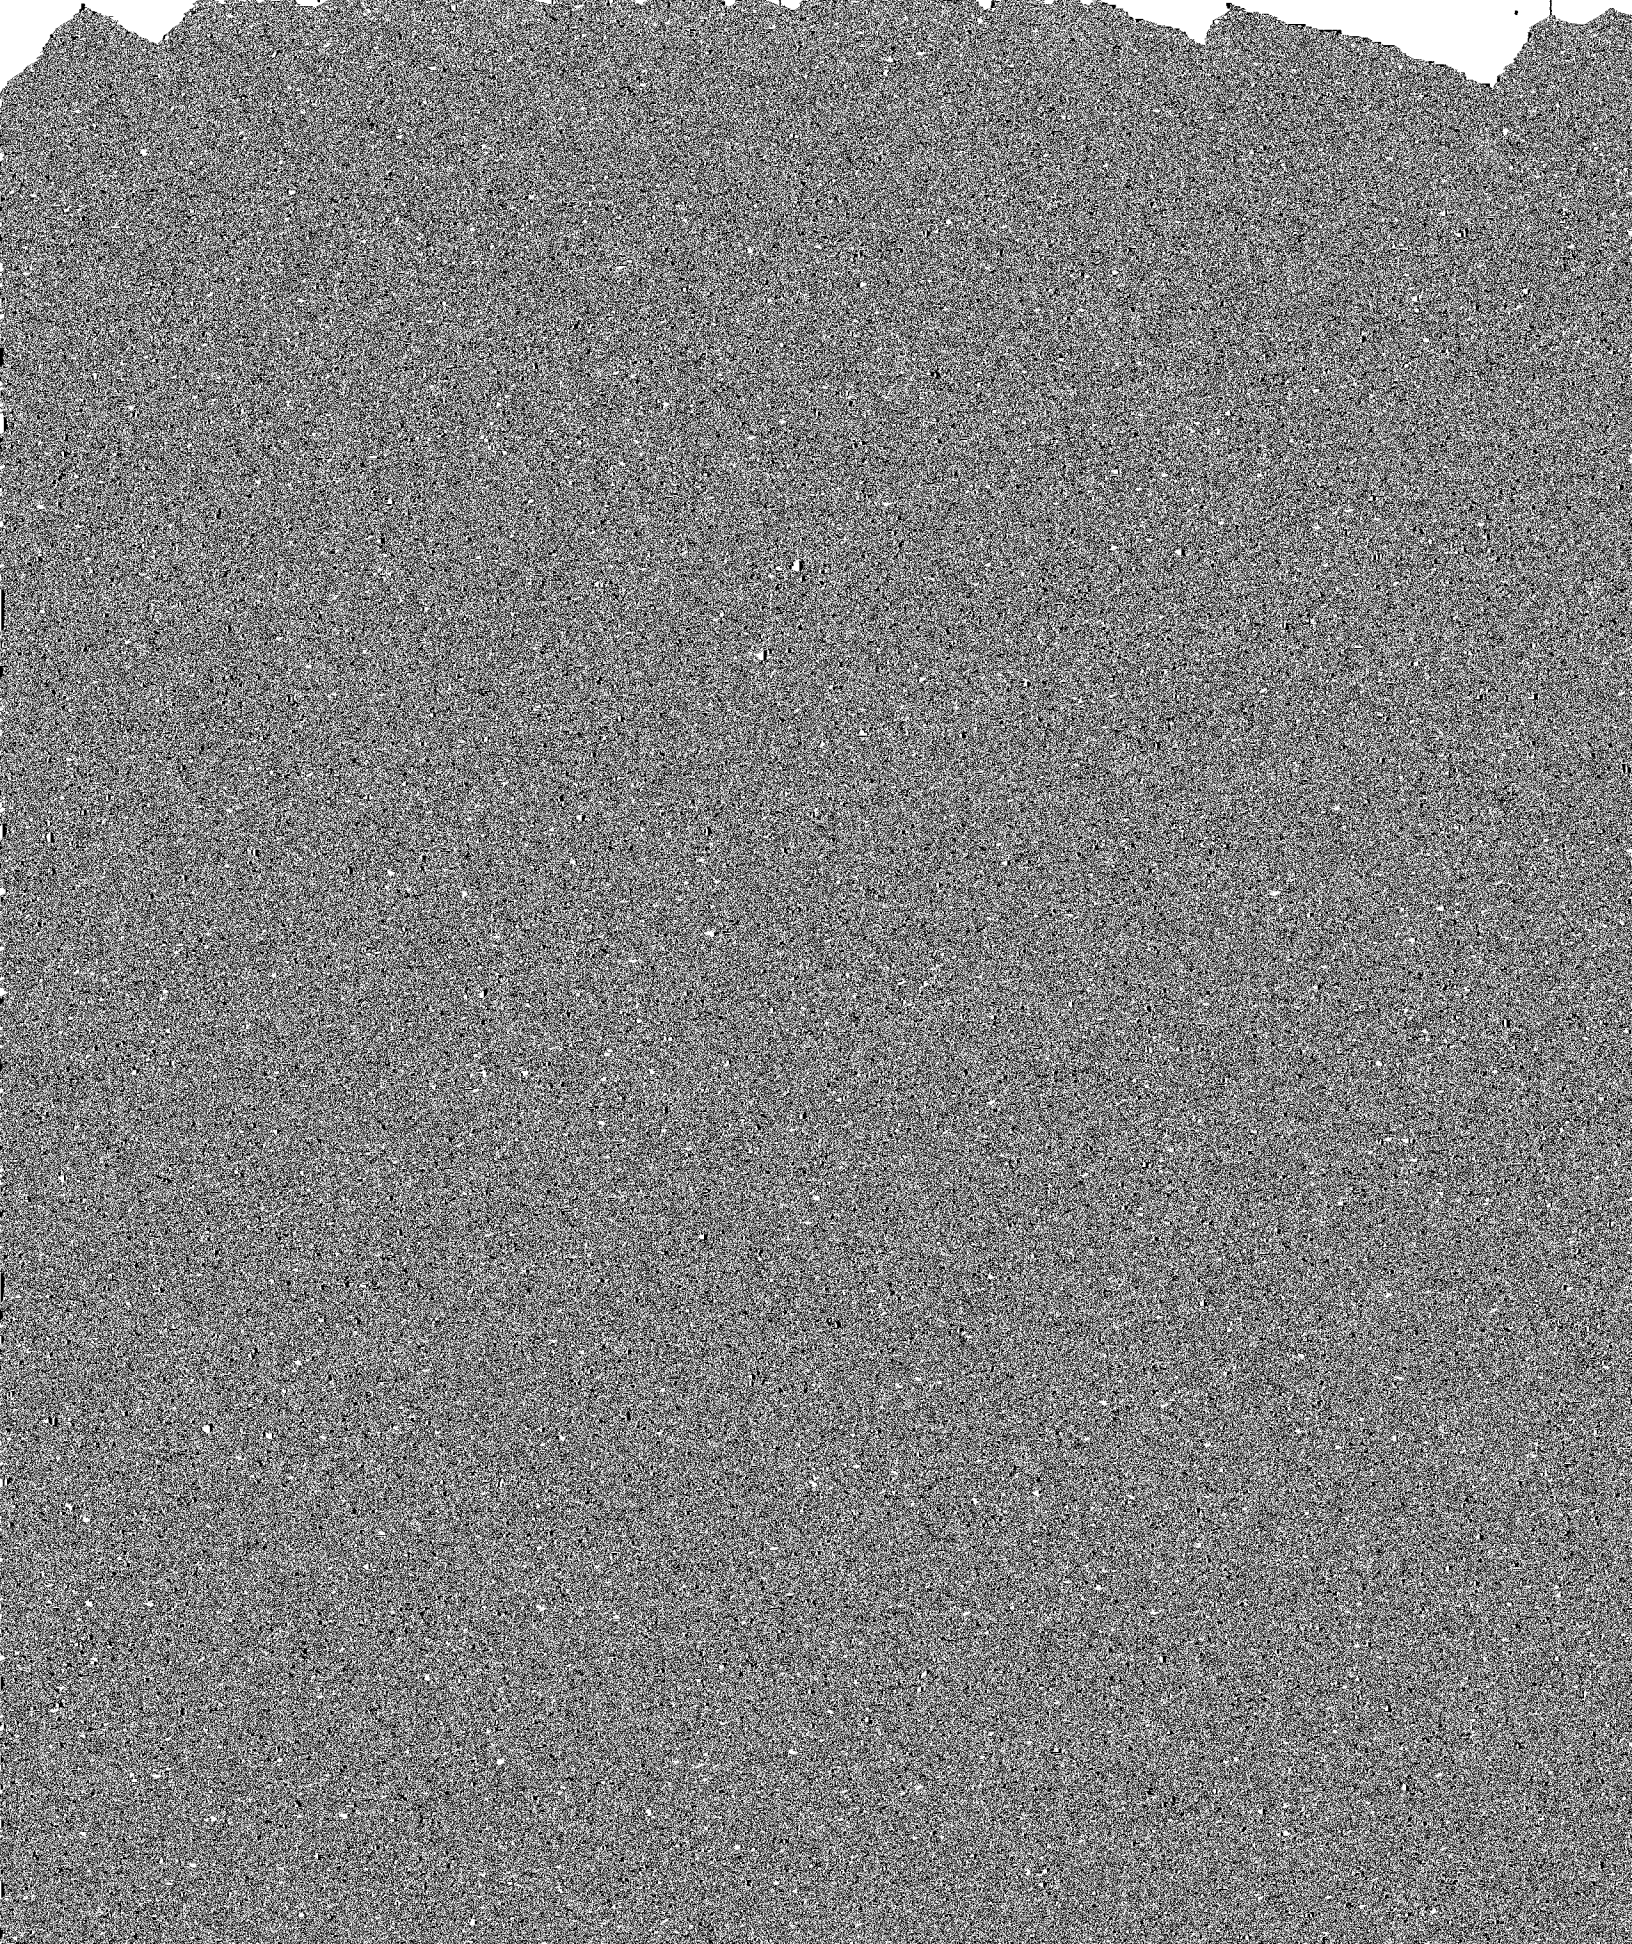

IV. CONCLUSION

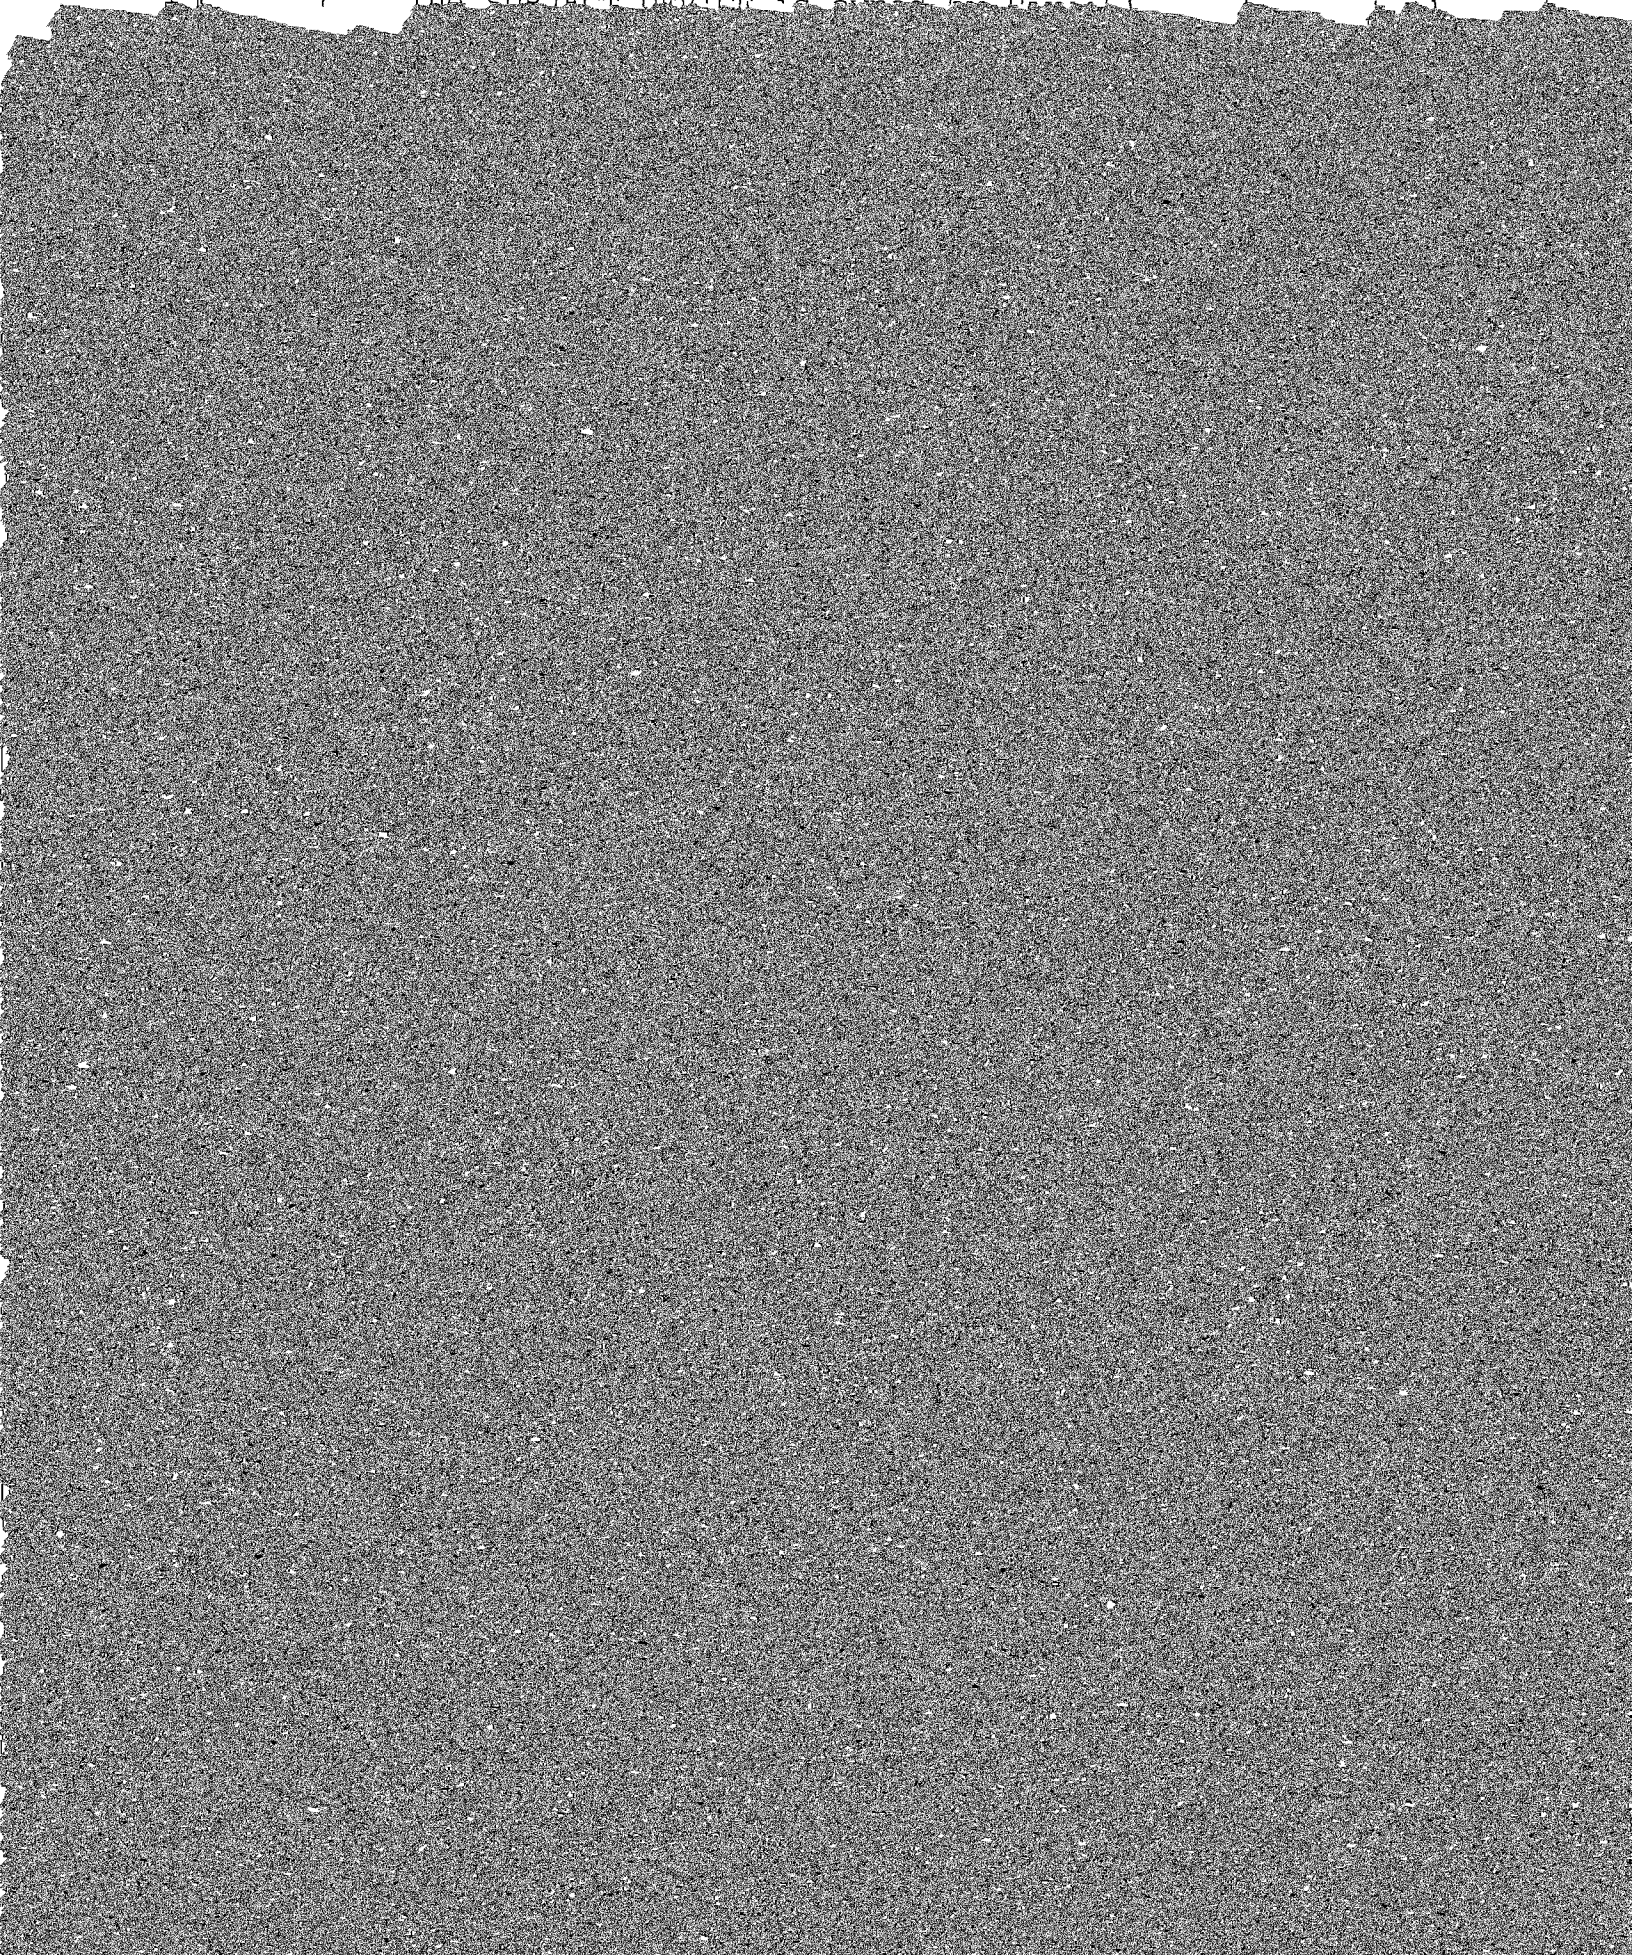

DECLARATION OF CHRISTOPHER D. WILD

1 III SEIZURE AND EXAMINATION OF SUBJECT DEVICE

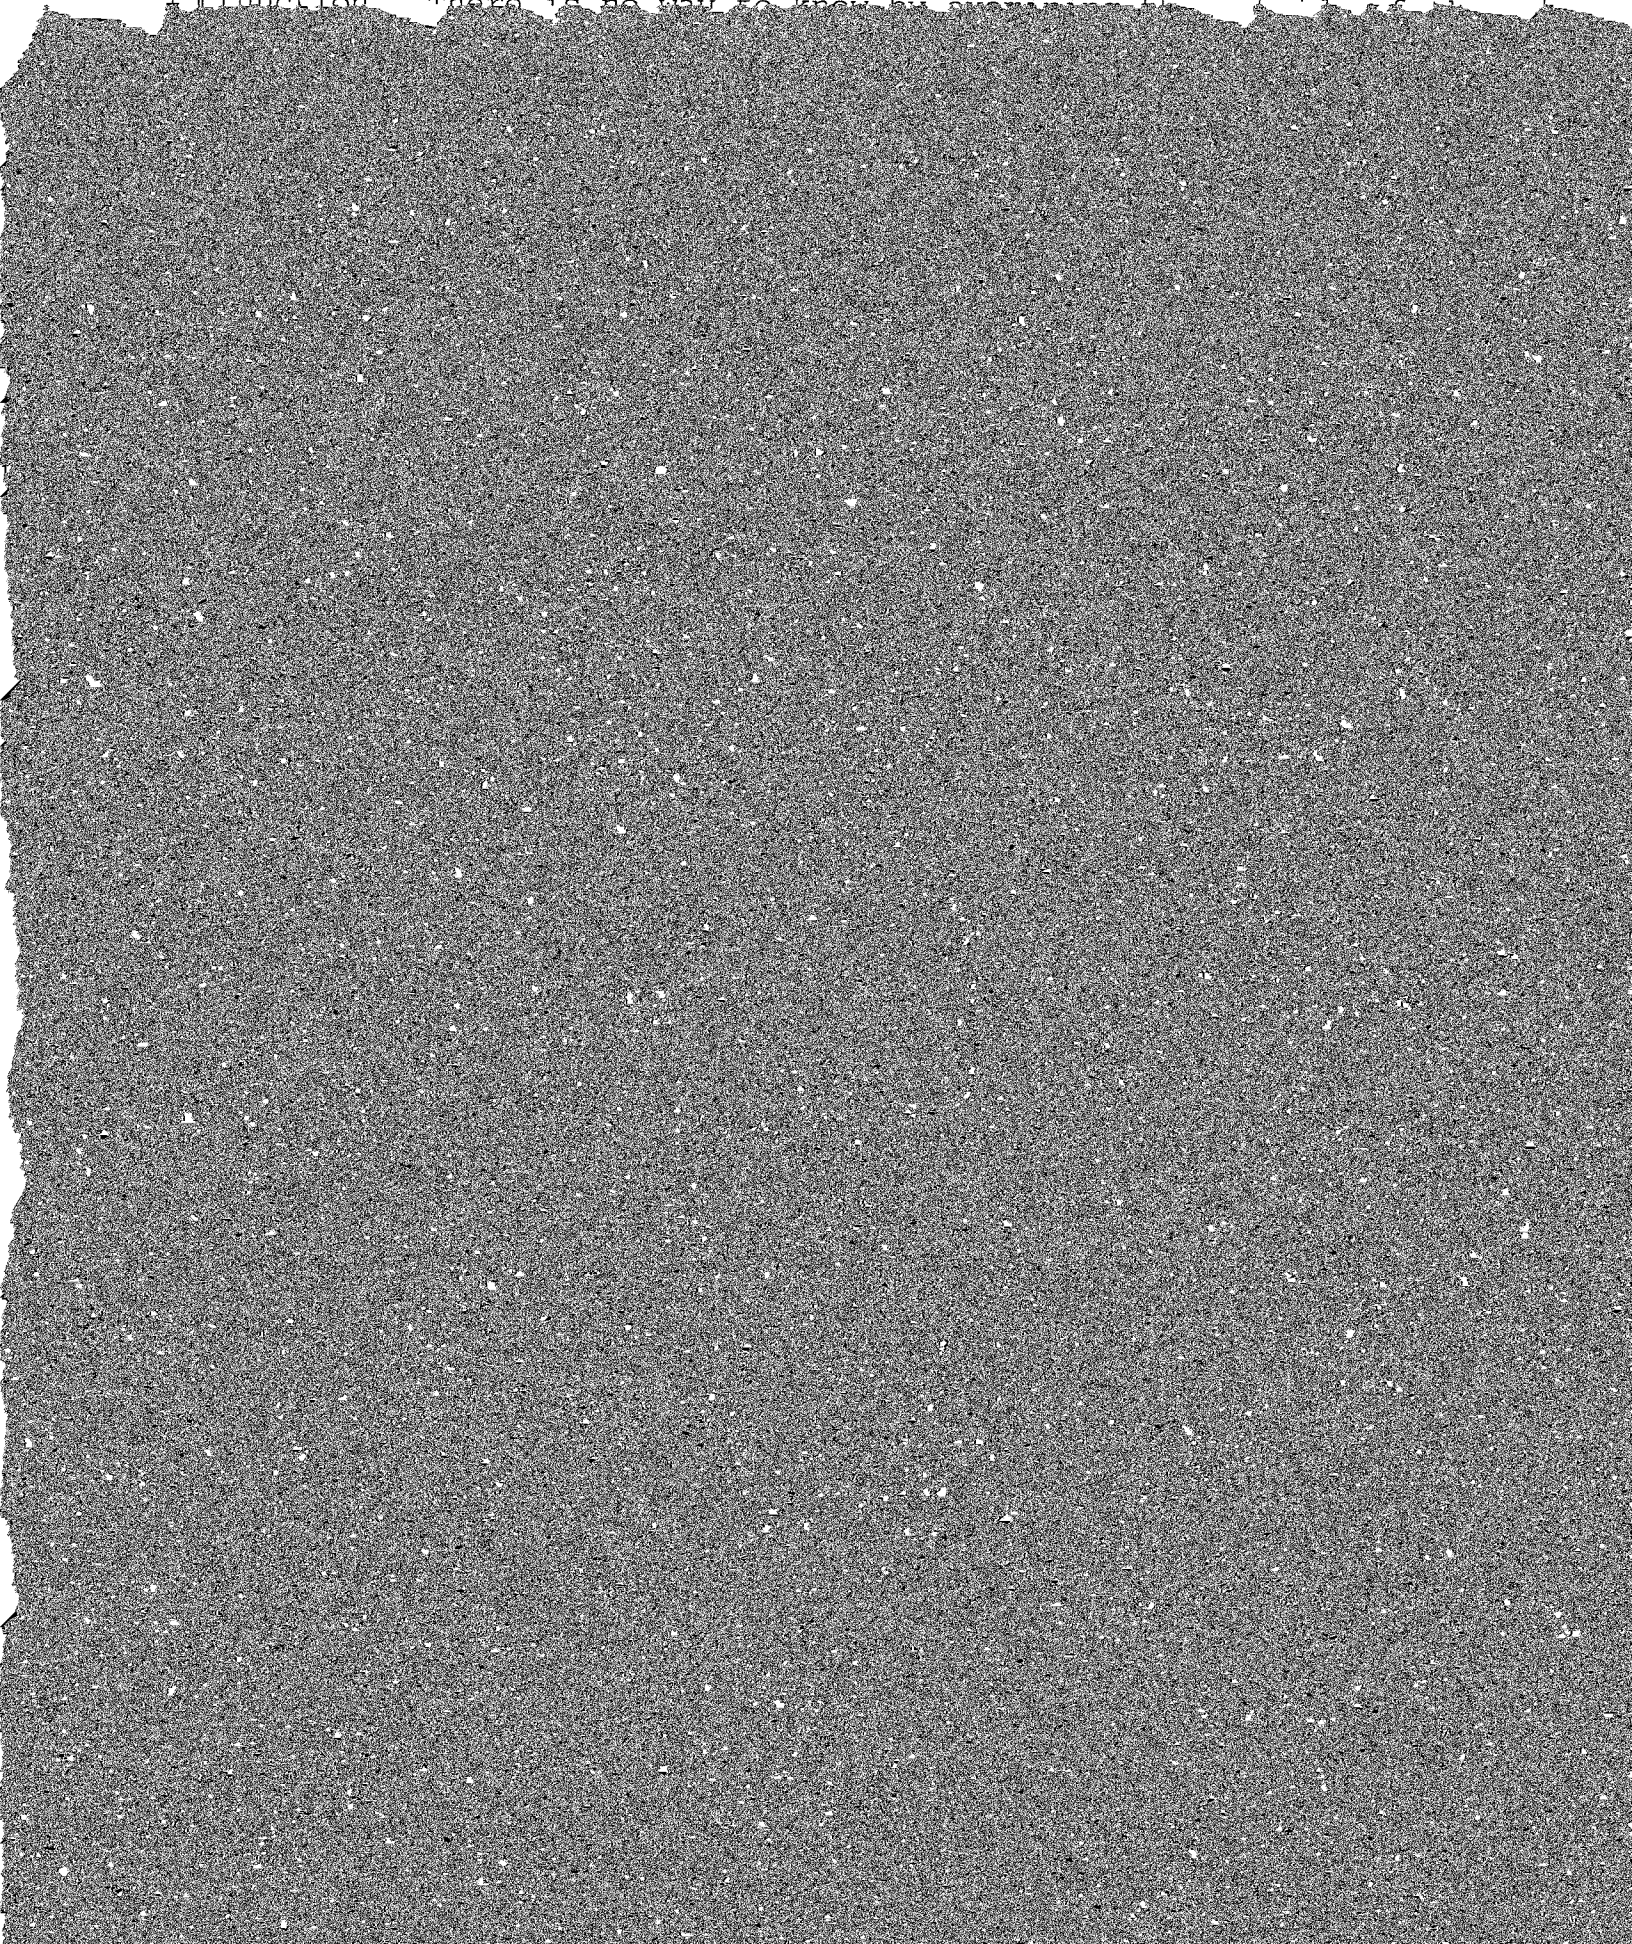

7 The SUBJECT DEVICE is owned by [redacted]

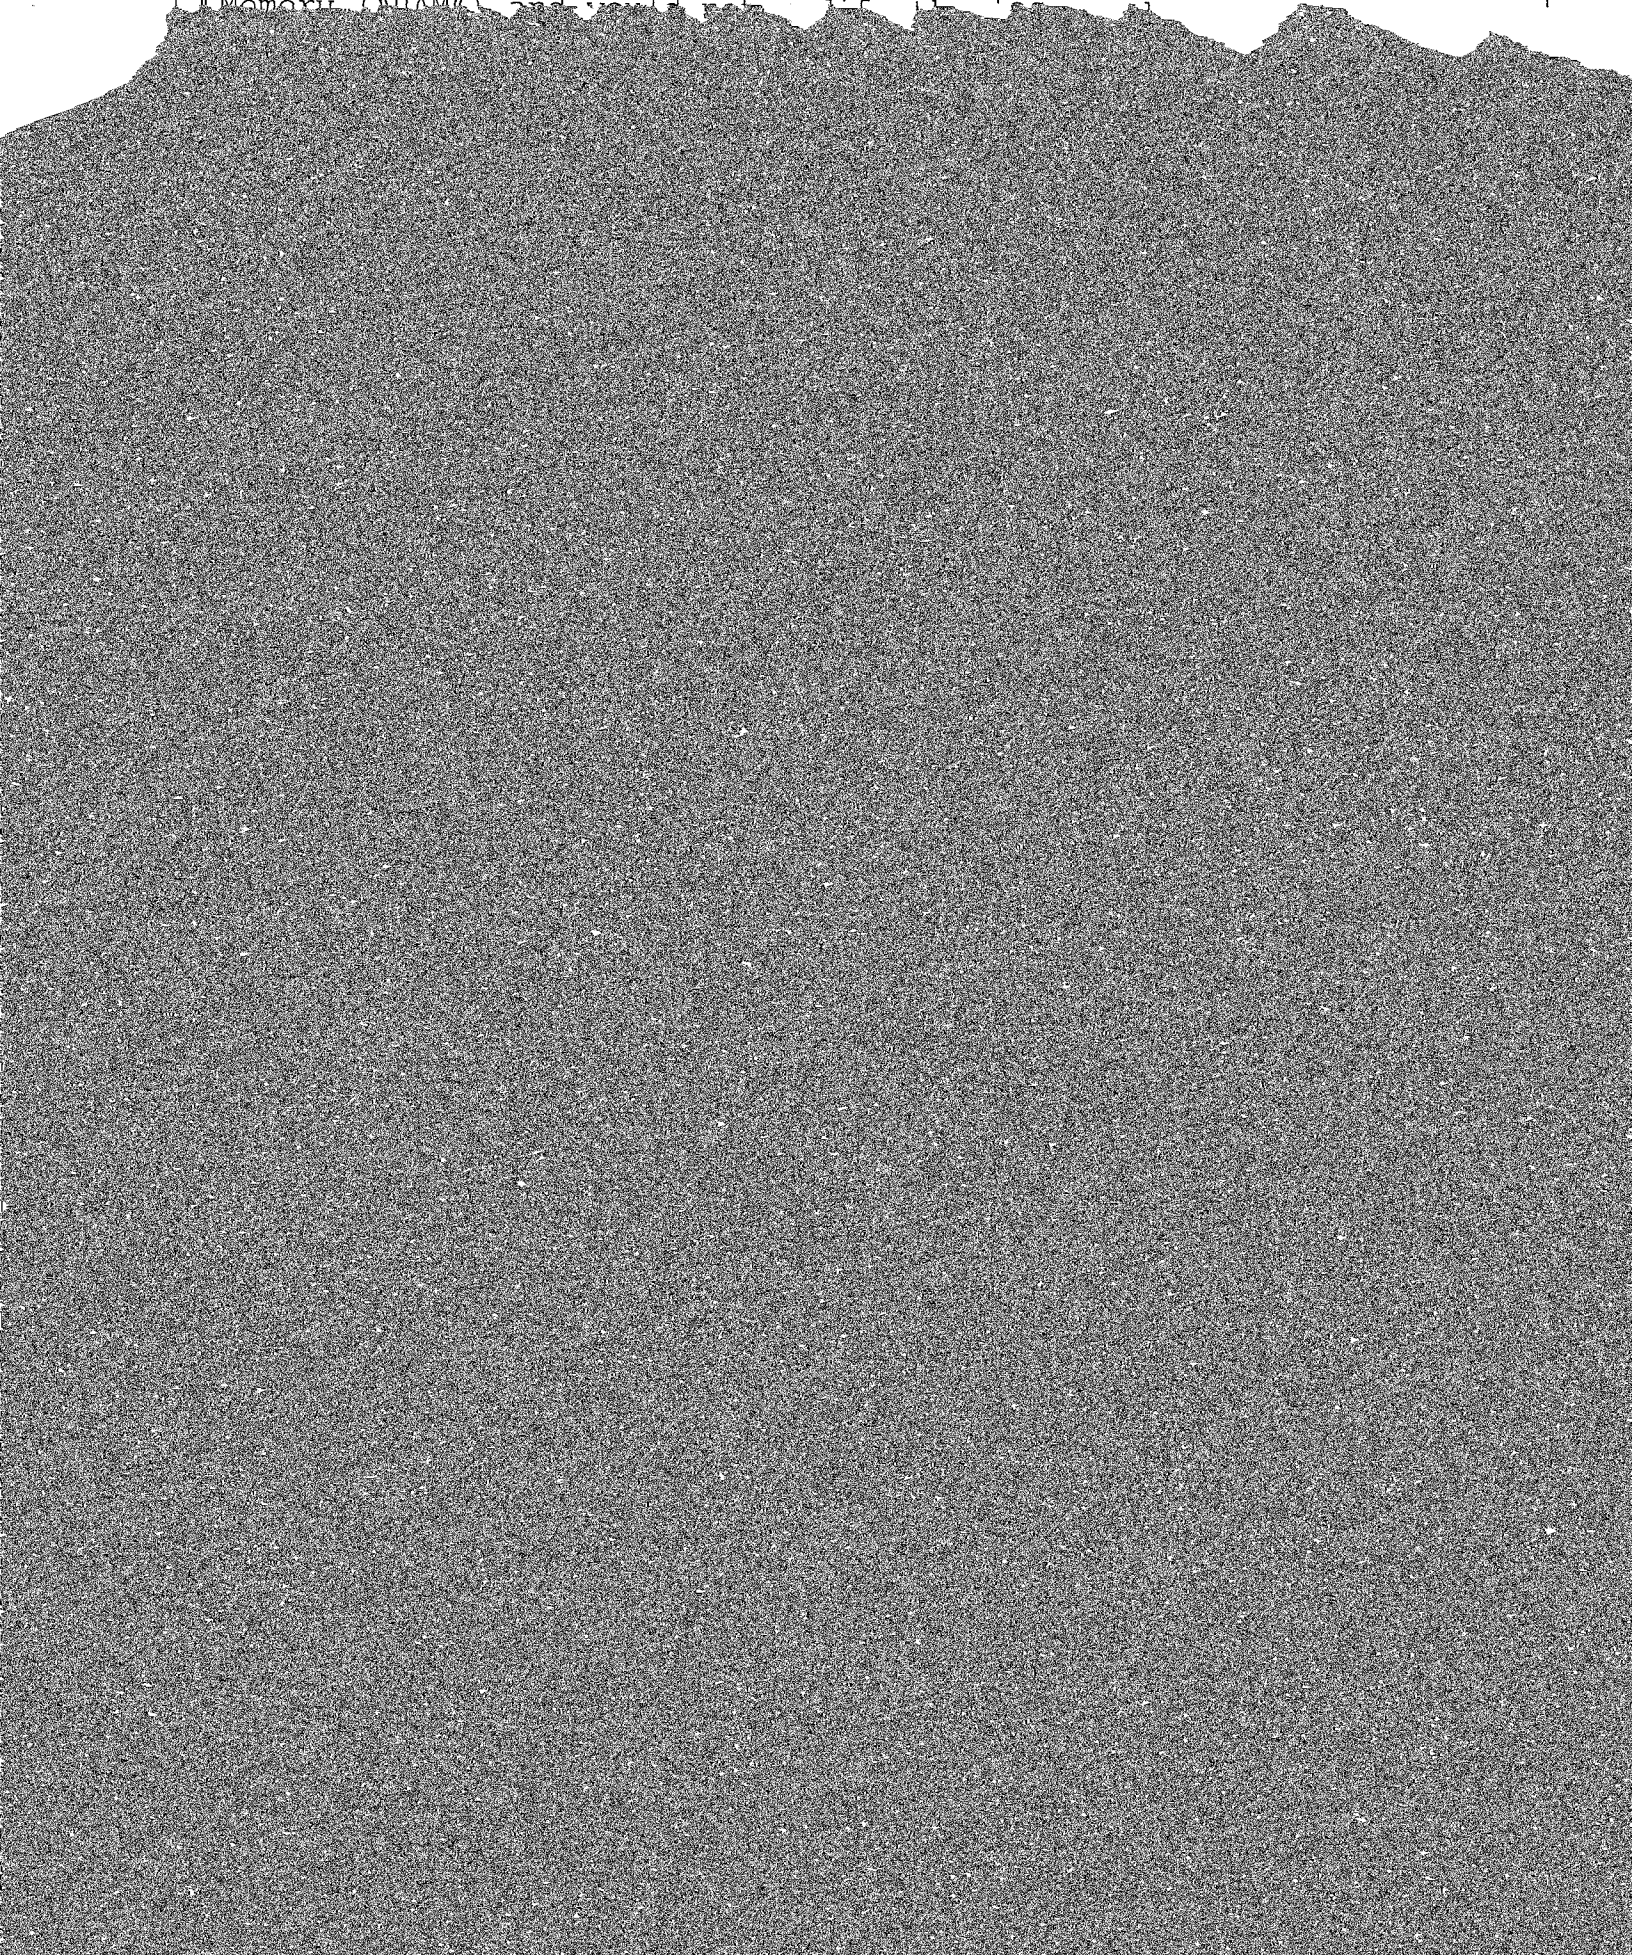

1 to either the government or Apple. In addition, I have personally

1 that Apple devices can only run verified/signed software.

1 function. There is no way to know by examining the

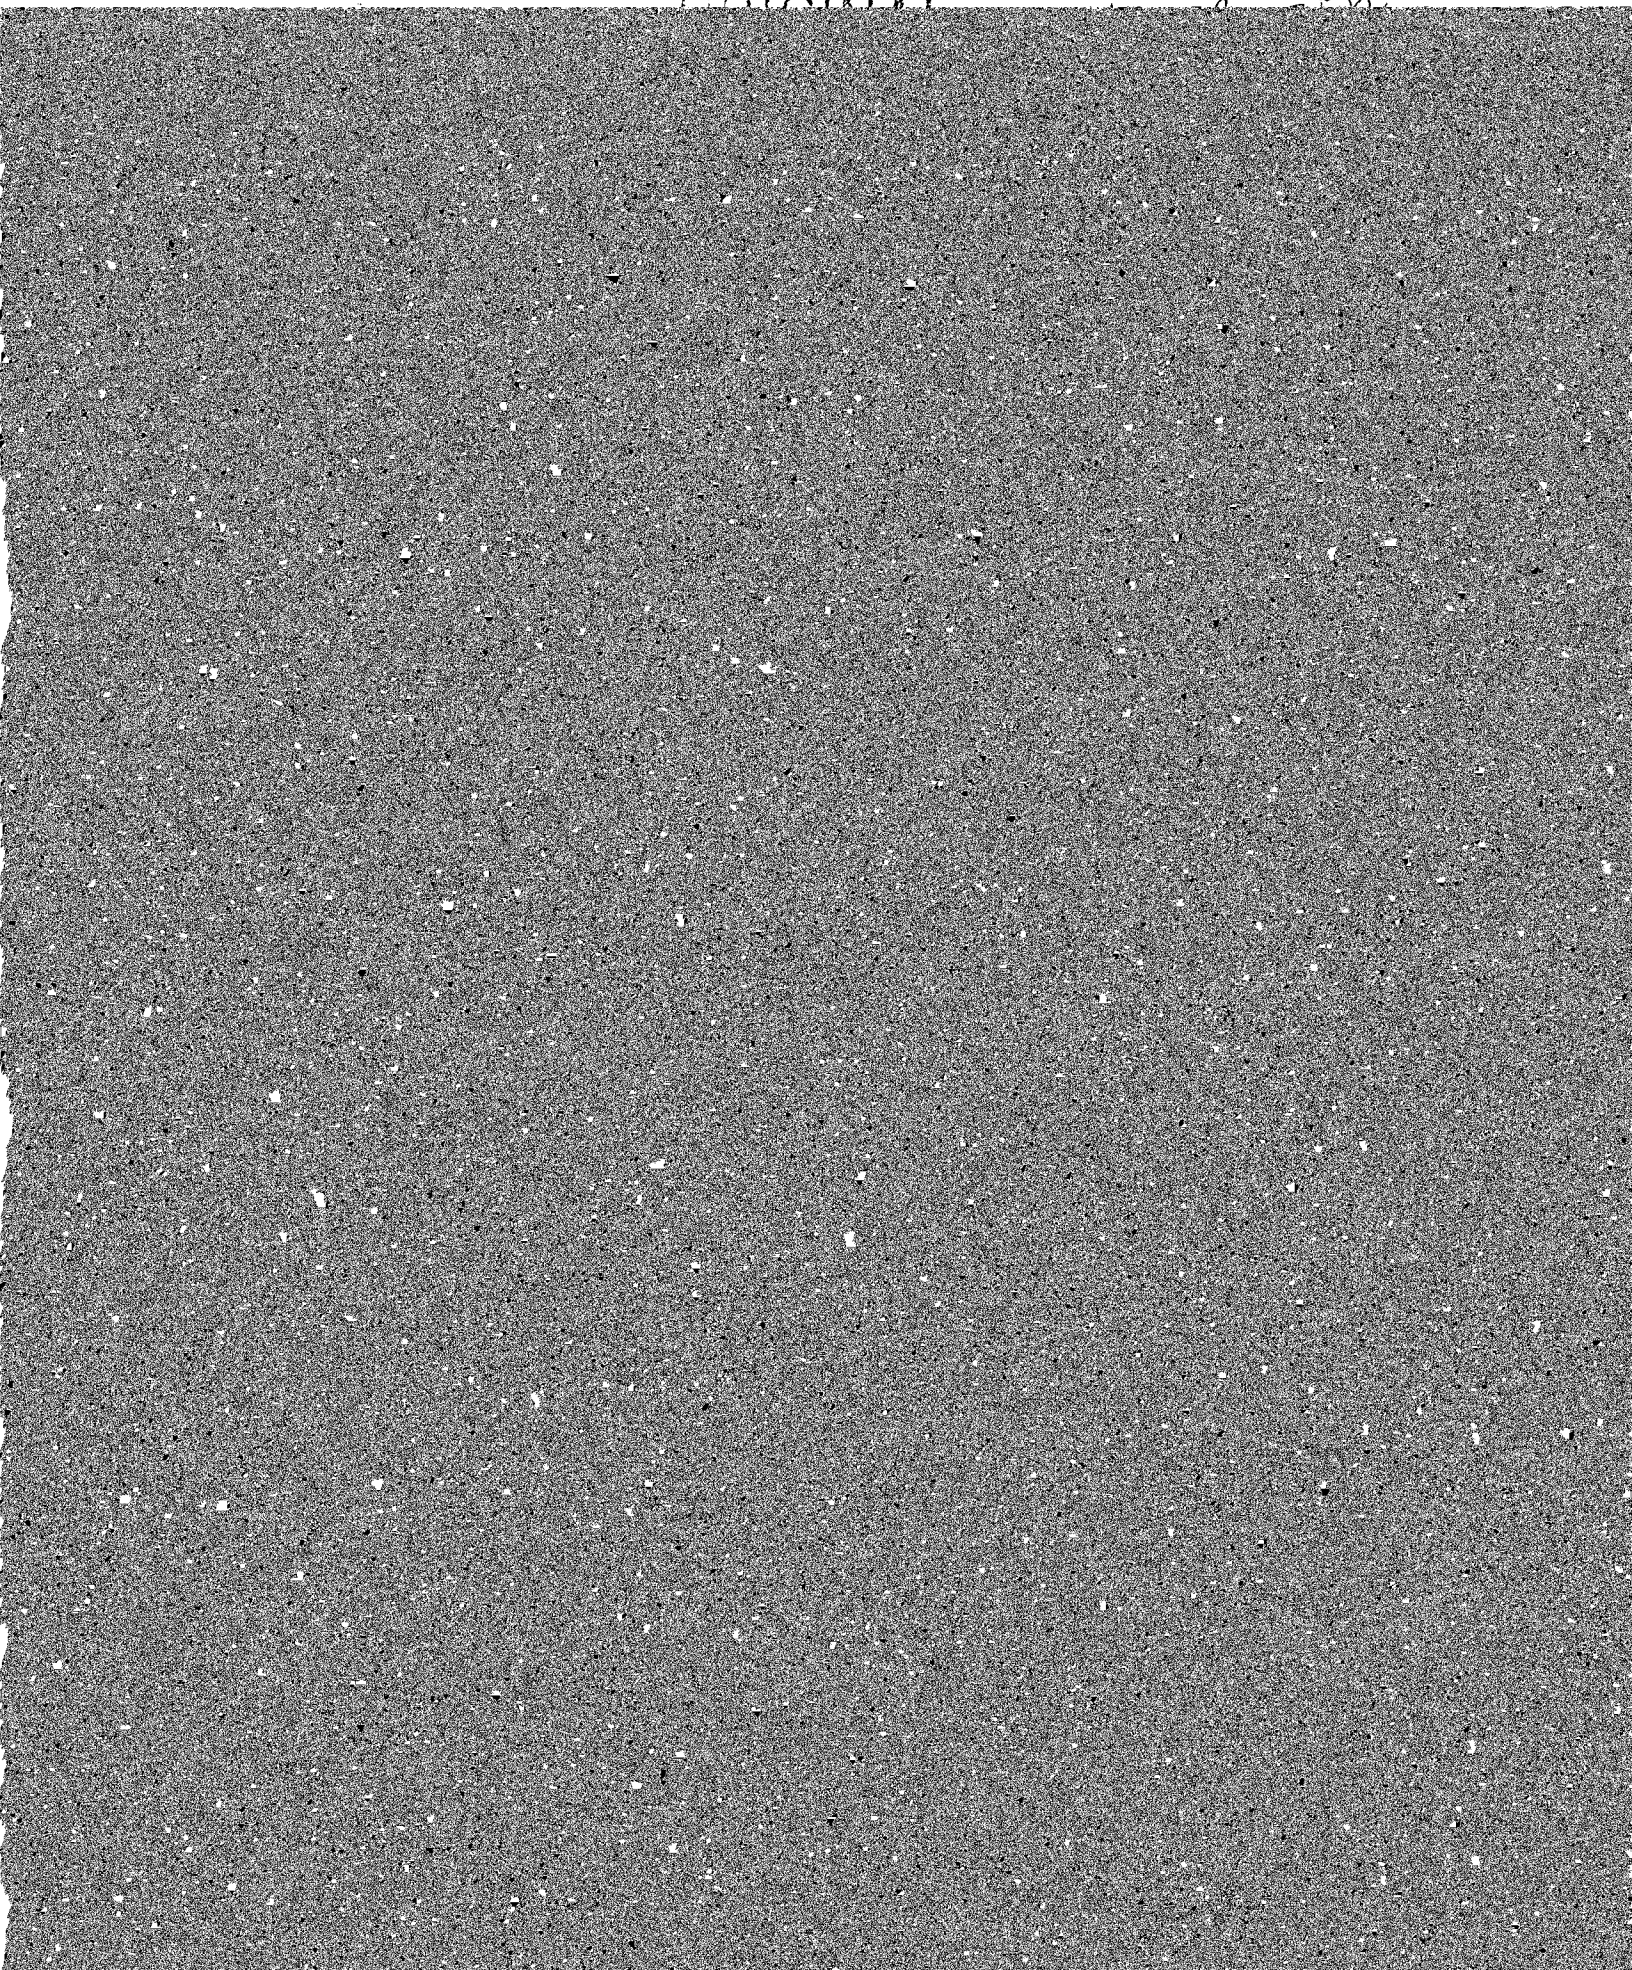

1 MEMORY (WRAM) and you'll find it

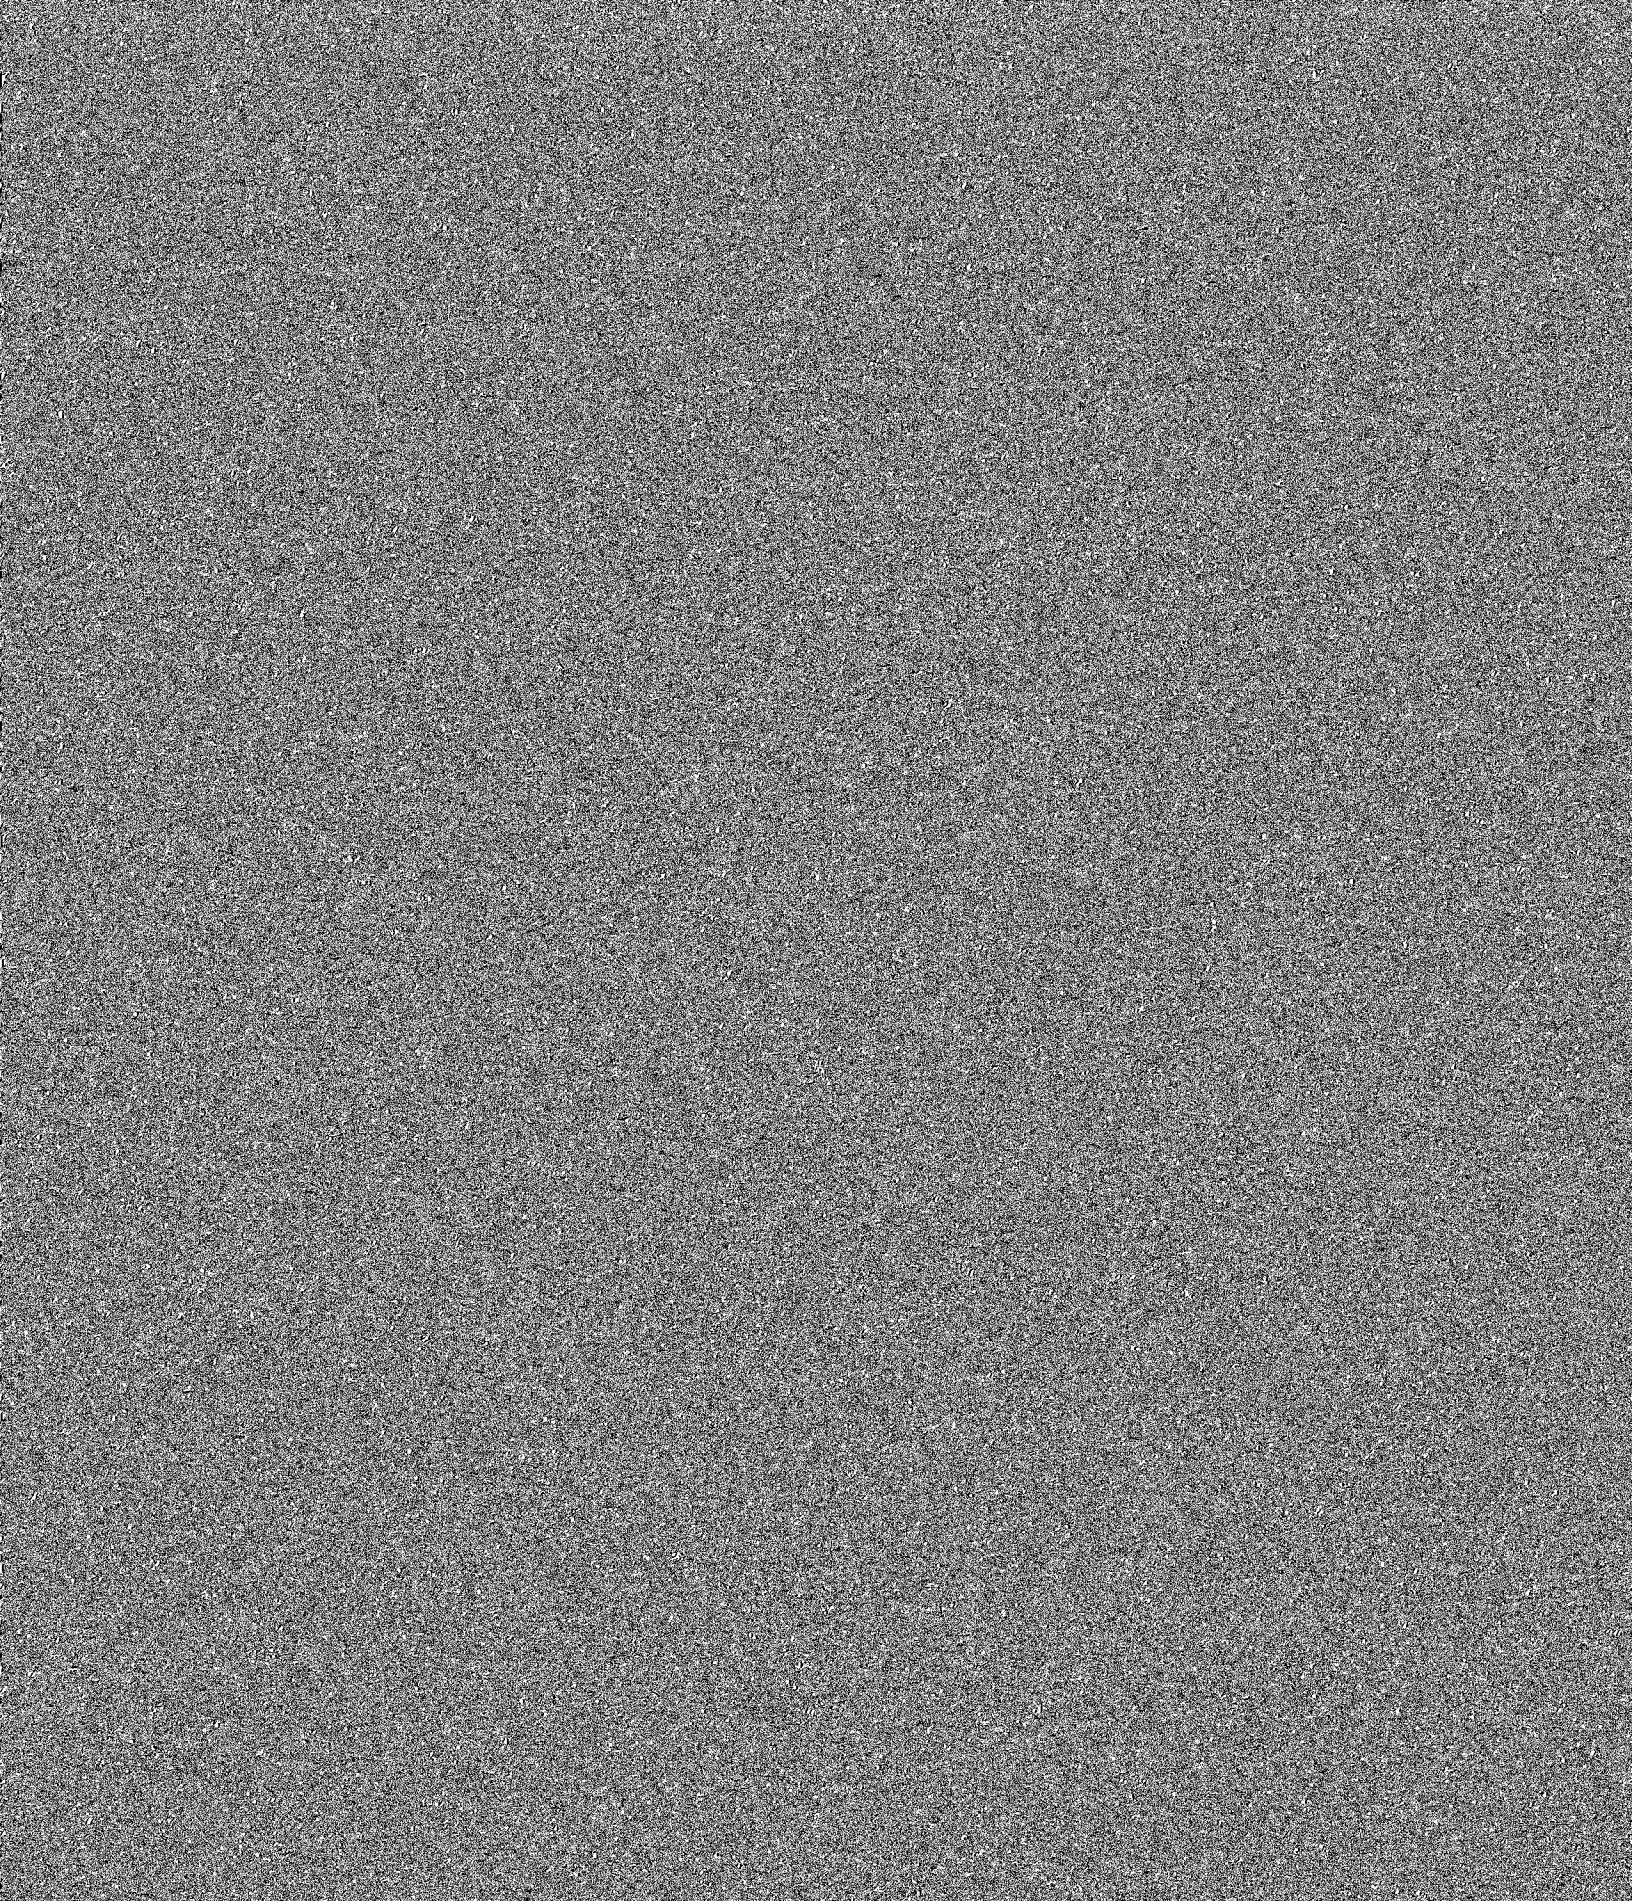

1 without Apple actually providing the government with the SIF; and
2 (3) the SIF would not introduce any additional delay between
3 passcode attempts beyond what is incurred by the Apple hardware
