Dear Ms. Fong:

Thank you for your letter dated 8 February 2018.

In your letter, you ask for a specific period of time. The specific period of time

in which I am

to determine what "operational control" means. By way of example and not limitation, I am seeking to determine whether CIA personnel were involved in the operation of facilities such as Echo 2; (2) what organization had decision-making authority over the facilities; (3) whether CIA "operational control" ended before or after 31 January 2007; (4) whether the "operational control" involved CIA, whether the "operational control" involved CIA personnel, whether contractors; (5) how detainees were maintained in the CIA facilities during the period of "operational control," such as Detainee Management System records or the equivalent; (6) How other agencies would obtain access to detainees during the period of "operational control." (7) How the facilities transitioned from CIA "operational control" to DoD "operational control."

Inmate Management System records or the equivalent; obtain access to detainees during the period of

control," such as Detainee Management System records or the equivalent; (6) How other agencies would obtain access to detainees during the period of

"operational control" to DoD "operational control."

(7) How the facilities transitioned from CIA "operational control."

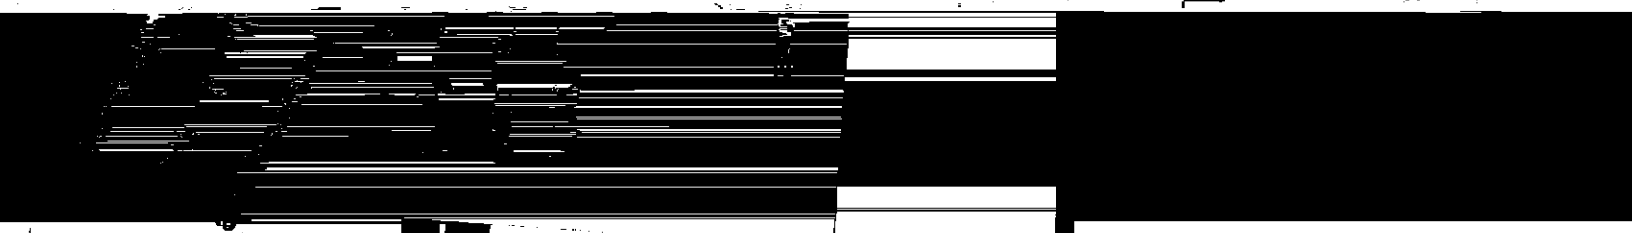

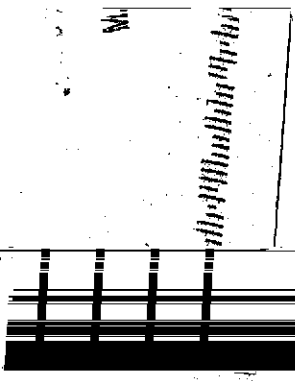

The document cited at footnote 977 of the SSOCI report, "Background Memo for CIA Director's visit to Guantanamo, December 2006, entitled Guantanamo Bay High-Value Detainee Detention Facility." I am already aware of Document 6541712, the Memorandum of Understanding between the Department of Defense and the CIA regarding the detention of Guantanamo Bay detainees.
